Gravitation
to and from
what we want and what we know is done
Look past the hardships
that we have fought
to keep us in each other's thoughts

**While we take our break
Look at our mistakes
Pass the blame and drink the sorrow
As we sit and hide
from our darker side
I can't stop thinking you will**

**Wonder how a normal guy like me
could ever find a normal girl like you
Then along the way a lot had changed
and we can't look back and it's feeling strange**

Intro chords played staccato for ending
