

## **Forever**

Hearing footsteps in my head  
Thinking you will come my way  
Will I see you in a year,  
in a month, a week or day?  
I seem to like to play the fool  
Always waste my time on you  
When will I open my eyes  
and see I haven't got a clue

Well, I shouldn't wait around forever  
Well, I might, I will, I do  
Don't make me wait around forever  
Well, I might, I will, I do

When will you want to see me?  
All I do is think of you  
Do you know that I exist?  
Can you help to see me through  
the longing I feel in my heart,  
the pain that's burning in my mind?  
I need to have you next to me  
Why are you so hard to find?

Well, I shouldn't wait around forever  
Well, I might, I will, I do  
Don't make me wait around forever  
Well, I might, I will, I do

Hearing footsteps in my head  
Thinking you will come my way  
Will I see you in a year,  
in a month, a week or day?  
I seem to like to play the fool  
Always waste my time on you  
When will I open my eyes  
and see I haven't got a clue

Well, I shouldn't wait around forever  
Well, I might, I will, I do  
Don't make me wait around forever  
Well, I might, I will, I do
