no one else but you

When you came into my life

I felt my heart start to race

All other girls in my life;

they vanished without a trace

I want to walk you, protect you, escort you back to your home

I want to always be there to assure you, you won't be alone because

all my life I'm trying

just to be with you

All my life I'm trying 'cause there's

no one else but you

I want to walk you, protect you, escort you back to your home

I want to always be there to assure you, you won't be alone because

all my life I'm trying

just to be with you

All my life I'm trying 'cause there's

no one else but you

no one else but you

no one else but you

no one else but you

no one else but you
